

BIMarabia

BIM
BUILDING
INFORMATION
MODELLING

The first Arabic magazine specialized in
Building Information Modeling

BIMarabia

who we are ?

BIMarabia is the first (Arabic) e-magazine intended to spread awareness of BIM tools and workflows across Arabic regions. BIMarabia was written and edited by users, targeted to be beneficial to practitioners and researchers in this field. Through our experience we found that the construction industry need it just as students, researchers, universities. When we published the Arabic version, many readers ask us to translate it to English and other languages, Thus, we decided to start translating it into English language.

This is an English version of BIMarabia e-magazine, which is specialized in Building Information Modeling (BIM).

Omar Selim

Vision

Keeping up with arts and engineering science in Arabic, presenting obvious information to all arabic students both graduates and practitioners. Providing the experience of specialists to current engineering students, also provide experienced expertise to specialists in this field.

BIMarabia is licenced in September 2017, united kingdom of great britain - licence number:11271

Message

Building the Arabic human, thinker, teacher and engineer, and preparing them to rise possibilities and local energies. Supplying studies, translation movements from and into Arabic. And forming an Unified Arabic Reference for storage and exchange experience.

BIMarabia

magazine
content

1

Introduction

Fixed chapters:

Transferred articles (Translated) & written articles (Written by the author) & analysis of projects & special section for academic topics follows up the academic researches which concern academics

2

3

Various chapters:

Interview with one of specialists and BIM pioneer, or managers of companies which work in BIM & common questions section & summary of a book which be read and recommended & tricks and ideas of BIM programs

New news :

Learn about a new program or a new add on to BIM program, because of presence of many professors who teach most of BIM software

4

5

Conferences coverage

Links to articles or
educational videos

BIMarabia

About the
authors :

Omar Selim

BIM manager and founder of
BIMarabia magazine

Dr. Bilal Succar

BIM THINK SPACE founder

Dr. samer
El sayary

Professor at
university Beirut

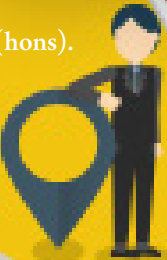

Dr. Nashwan
Dawood

Professor at Teesside
university in United
Kingdom

Dr. noha saleeb

PhD, MSc, BArch (hons).
FHEA

Dr. Hani omer

Infrastructure Manager for DEWA

BIMarabia

About the authors :

Eng. Hamza Moshrif

Ph.D. student at RMIT university in
Australia

Dr. Mohamad Kassem :

Professor at Teesside
university in United Kingdom

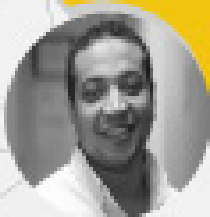

**Dr. Yasser
Abu Al-saood**

Technical Support
Manager at Saudi Bin
Ladin Group

**Eng. salah
omran**

BIM Unit lead at
Projacs International

**Eng. kamal
shawky**

Senior Structural Engineer

**Eng. Sonia
Ahmed**

Ph.D. student at Czech
Technical University in
Prague

Terms of publishing an article in the magazine

join us

» The article should be discussed topics related to Building Information Modeling

» The article title should be in Arabic

» The article should be at least a one page and not more than three

» Each page should be included from a high accuracy figure to three

» The article is reviewed by the superintendent team. If there are any notes, it should be modified before a reasonable duration of magazine publication in order to have a perfect magazine

» In the case of written articles (written by the author) , the copyright will be saved and the article essence will not be modified. The superintendent team has only the right to correct linguistic errors.

» If a non-Arabic expression will be mentioned, it should be translated and the expression should be placed between brackets in its original language

» The final file is delivered with the name of the author and his job as a Word file

» References, references of academic articles (transferred articles by translation only) and sources of figures in articles should be mentioned

BIMarabia

Translation of BIM dictionary to Arabic language like a part of BIM spread plan.

Educational videos in BIM field and all disciplines of engineering.

Reply to all inquiries about BIM and publishing the articles of magazine to spread benefits.

The followers of BIMarabia page exceeded 10000 follower in less than a year

BIMarabia

Magazine activities

In order to develop BIM technology and spread it widely, our magazine collaborates with many major expert companies.
